

### **Remarks**

Applicants received a Notice to File Corrected Application Papers mailed 1 June 2010 for the above-referenced patent application. The Notice identified certain specifications/drawing inconsistencies. In particular, it noted that included in the “Brief Description of the Drawings” section of the Application, a reference was made to Figure 1B, and such drawing figure was not included in the Application. In addition, the Notice indicated that the drawings filed on 28 December 2009 included a Figure 4 but that the specification’s “Brief Description of the Drawings” section did not describe such a drawing.

By this paper, the specification is amended to change the incorrect designation “1B” to the number “4”. This change addresses both of the inconsistencies identified in the Notice and the Application is now believed to be in a condition for allowance.

Please charge any fees or credit any overpayments as a result of the filing of this paper to our Deposit Account No. 02-3978.

Respectfully submitted,
